

Freie Universität  Berlin

**BioMove Friday on**

# **“Microbial Model Systems” and “Nectar Yeasts”**

**Friday, July 7<sup>th</sup> 2017**

**at Freie Universität Berlin**

(building "plant physiology", Room 034 (Lesesaal), Königin-Luise-Str. 12-14, 14195 Berlin)

Detailed Programme:

9:00-10:00 Seminar Matthias Rillig: "Introduction to microbial model systems" + discussion

10:00-10:15 Break with "Nectar yeast odor memory" (Sebastian Hausmann)

10:15-12:00 Workshop-style discussion "Microbial model systems for BioMove"

(Here participating doctoral students and PIs should actively contribute by "boiling down" their own current projects or other ideas for future projects to the bare conceptual core, and then we would explore together how such basic questions could be approached with suitable microbial systems")

12:00-13:00 Lunch break (cafeteria Julius Kühn Institute)

13:00-13:45 Seminar Moritz Mittelbach "Nectar yeasts" + discussion

13:45- other meetings, brainstorming session etc as required and/or farewell
