

BioMove invites you to a talk by

Dr. Simon Ripperger

(Museum of Natural History Berlin, Germany)

on

“Novel insights into the social life of bats from wireless tracking sensor networks.”

Friday, June 8th 2018,

13:30, house 60, room 3.01

(Am Mühlenberg 3, Potsdam-Golm)

Next BioMove Seminars "Bridging movement ecology and biodiversity research":

Date	Guest	Topic	Location
Monday 11.06.2018 14:15 - 15:45	Dr. Carsten Buchmann University of Hohenheim, Germany	The allometry of endo- and epizoochorous seed dispersal - insights from model simulations and experiments	University of Potsdam, Golm house 60, room 3.01
Friday 06.07.2018 10:45	Peter Casper Leibniz Institute of Freshwater Ecology and Inland Fisheries, Neuglobsow	Methane metabolism in lakes – organisms and pathways	LakeScapeLabs, Neuglobsow
Friday 20.07.2018	Prof. Luca Börger University Swansea, United Kingdom	tba	University of Potsdam, Golm house 60, room 3.01
