

BioMove invites you to an Excursion to
**LakeScapeLab in Neuglobsow at the Leibniz Institute of
Freshwater Ecology and Inland Fisheries (IGB)**

Friday, July 6th 2018

(Location: Stechlin: Alte Fischerhütte 2; OT Neuglobsow; 16775 Stechlin)

Transport:

1. by car:

- a) **contact Gabriele S.**, he drives a ZALF bus from Berlin Ostkreuz or Potsdam to Neuglobsow
- b) **contact Manuel**, he drives the IZW bus at 8.30 a.m. from Wildenbruchplatz in Berlin
- c) if you drive by yourself, check for road signs - **navigation systems stop to work 2 km before!**

2. by public transport:

RE 5 to Rostock, stop at Fürstenberg/Havel; Bus 839 direction to Menz; exit in Neuglobsow; so-called "RufBus" **booking until latest 90 Min. before scheduled departure: Tel.: 03306/2307**; walk from bus station to IGB ~1.5 km along shore of L. Stechlin

Meeting point is in Neuglobsow, Alte Fischerhütte 2 at the entrance of the IGB at 10.30 am!

Time schedule:

10.45 am Introduction to Dept. Experimental Limnology of IGB – History, research by Peter Casper

11.15 am Visit of the LakeScapeLab (www.lake-lab.de)

12.15 am Lecture by Peter Casper on the “Methane metabolism in lakes – organisms and pathways”

After the official program we will have the possibility to eat at the local fish bistro (1.5 km away) or in a normal restaurant (2.5 km away). On the way to the restaurant we can also go swimming in the Stechlin Lake (please not at the jetty facility of the IGB!).

For more details visit www.biomove.org!

Next BioMove Seminar "Bridging movement ecology and biodiversity research":
